Key Features

-  GPS tracking
-  Secure Backups
-  Vehicle Activity Monitoring
-  Ruggedized Tablet
-  Integrated Two-Way Communications System
-  IFTA Reporting

Our ELD is Secured on a 4G Network

Important ELD Mandate Requirements

- 1 The use of an ELDs applies to any federally regulated carriers who currently use traditional paper logbooks. Provincial and territorial regulators will need to adopt the rules that apply to provincial and interprovincial operations.
- 2 An ELD will automatically record information such as driving time, odometer readings, and engine power-up.
- 3 Roadside inspectors will be able to ask for an ELD record to be emailed to a supplied address.
- 4 Fleet compliance must have real time access to information.

Why choose us?

Diesel Tech Industries is a trusted and well established company with close to 20 years in the transport industry technology field. Our in-house engineering and real world expertise is backed up by the best customer service. Our mission is rooted in driving innovative technology to the transportation industry, with focus on diesel engine applications.

Guardian ELOG was developed with your fleet in mind. Our ELD provides many benefits to carriers and drivers. With countless options, the system was engineered to fit your requirements and is capable of being integrated with your transport management system.

Easy Transition

The Guardian ELOG will be a painless transition to a paperless log for your entire fleet. Our device is designed to be easily operated and understood, while still being compliant with Canadian and US ELD mandates. It has also been field tested by experienced drivers to gain insight on ease of use. The Guardian ELOG will record the hours and km driven, ensure faster Inspections and more manageable, easy to read reporting. By directly accessing the vehicle's computer, instead of GPS approximation, the accuracy of the information is guaranteed. The Guardian ELOG provides the peace of mind that you are doing everything you can to preserve the integrity of your safety and compliance standards.

Advantages

Expert Engineering

The Guardian ELOG is designed and engineered inhouse by our technical experts. We are working alongside industry leaders with an inestimable amount of practical industry experience.

Secure Data

The Guardian ELOG is backed up to an encrypted cloud based system for 6 months. The device stores 14 days worth of data. This ensures the data is accessible 24/7 on multiple platforms.

Vehicle Active Monitoring

The information is being retrieved directly from the engine. The Drive Time, Off Duty Time, Yard Time, Loading time information is gathered directly from the vehicle's electronic communications system.

Stand Alone Tablet

DTI designed a dedicated tablet that works seamlessly with the ELD system. The Guardian ELOG is designed to withstand drops, vibrations, extreme temperatures, differing altitudes, and natural elements such as wind, rain, sand, humidity and dust. By not relying on "off the shelf" or personal mobile devices; compatibility and permission settings are secured.
